

CTP Digital Meter Kits

Features of our CTP Digital Hour Meters

- The geometry and material of the Ratchet Lever enhances its performance. The glass filled material was selected for its strength to assure the part remains flat during its life.
- The torsion spring ends are designed to reduce hook stresses that are, in limited cases, causing spring failure.
- The Mounting Plate design is made of Nylon to ensure that the gear on the Ratchet Wheel will not break when exposed to high temperatures during operation.

Part No.	Description
2005717	METER
2005725	METER
2142465	METER KIT
2681964	METER KIT
3017292	METER KIT
3620289	METER KIT
9W1490	METER KIT
9W1491	METER KIT
9W1492	METER KIT

Part No.	Description
9W1493	METER KIT
9W1494	METER KIT
9W1495	METER KIT
