

Part# 1495403

CTP 3116 ENGINE BLOCKS

Whether you're re-building a partial engine or a complete engine overhaul, starting with a used 3116 engine block is always a gamble. There can be many surprises waiting for you inside a used block. In many cases, you might find that the 3116 block will require so much machine shop work, that it's less expensive to discard it and purchase a new casting. CTP has new 3116 engine blocks available for immediate delivery.

CTP replacement blocks offer several advantages in terms of durability, quality and value.

Features:

- ✓ Standard Cylinder Bores
- ✓ Standard Deck Height
- ✓ Installed Camshaft Bearings
- ✓ Installed Dowel Pins
- ✓ Strong and Durable Casting

Available for:
