

# CABLE HARNESS

CTP cable harnesses are made with high temperature resistant cables and are fully equipped with flame resistant sleeve protectors.

Our cable harnesses provide several advantages:

- ✓ Protect against the elements & adverse effects of vibrations
- ✓ Reduce the risk of electrical short circuiting
- ✓ Install harnesses fast with our standardized fittings
- ✓ Optimize space with bound cables

| Application                                    | Part No. |
