

WIPER SEALS

The main function of the **Wiper Seals**, also known as **Dust Seal**, is to keep the rod and cylinder clean and free from dirt and debris as it retracts; thus preventing early breakdown.

CTP Wiper Seals are not a pressure sealing part, yet they avoid possible damaging effects which may occur if any waste were to reach the sealing and rod bearings.

At CTP we offer single and double lip seals on the following materials:

- ✓ Polyurethane (PU)
 - ✓ Nitrile (NBR)
 - ✓ Natural Polyurethane (PU) + Metal Case
 - ✓ Yellow Polyurethane (PU) + Metal Case
 - ✓ Yellow Polyurethane (PU) + Metal Case
- ... and anything you need!
