

PIVOT SHAFTS

Pivot shafts are a crucial component of the body suspension, supporting all working efforts and movement constraints. Their primary purpose is to ensure the link between the frame of the machine and each track system on both sides of the vehicle.

Part No.	Description	Application
1080192	PIVOT BAR GROUP	D6R, D6R II
1342202	FRAME GP-TELESCOPING RECOIL	D11R, D11T
2065214	UNDERCARRIAGE AR	D9R, D9T
2389546	PAD & MTG GP-STABILIZER -STREET	416D, 416E, 416F, 420D, 420E, 420F, 430D, 430E, 430F
6T7407	TRACK ROLLER FRAME GROUP	D9L
6T9204	TELESCOPING RECOIL FRAME	D7H, D7R, D7R II
8E2837	CASE & FRAME GP	D8N, D8R, D8R II, D8T
8E2900	UNDERCARRIAGE AR	D10N, D10R, D10T, D10T2
