

# SEA WATER PUMPS

For marine operations, reliability is paramount, and our Marine Auxiliary Sea Water Pumps deliver just that. Designed to withstand the toughest conditions of the open sea, our pumps provide a consistent and efficient flow of cooling water to vital shipboard systems. With robust construction and a commitment to performance, our pumps ensure smooth sailing and peace of mind. Don't compromise on your vessel's safety and efficiency – trust in our Marine Auxiliary Sea Water Pumps to keep your operations afloat. Sail smarter, choose CTP.

- ✓ Coated seals extend seal longevity and durability
- ✓ Stainless steel shafts assemblies provide superior strength and durability
- ✓ High-quality bearings are permanently sealed and lubricated for greater durability and long life
- ✓ Thoroughly tested for reliable, leak-free performance
