

COOLING FANS FOR KOMATSU®

DISCOVER THE PERFECT BLEND OF STRENGTH AND EFFICIENCY WITH OUR CTP COOLING FANS – AVAILABLE IN BOTH METAL AND COMPOSITE.

STEEL FANS - The robust steel construction ensures minimal blade deflection, delivering the ideal air volume and flow at any RPM. Many of our Metal Fans feature riveted construction for enhanced service life, boasting fewer welded components. Plus, all metal fans come pre-balanced for a smoother, vibration-free experience.

COMPOSITE - Metal & Nylon Composite fans are less than half the weight of their steel counterparts, these fans alleviate stress on mechanical drive systems. This not only helps prevent failures but also ensures minimal downtime. Thanks to the intelligent blade design of composite fans, airflow is optimized, making them highly efficient and requiring less energy. As a bonus, Nylon fans are rust-proof and operate quieter. CTP Cooling Fans offer a cooling experience that not only delivers power but also ensures unwavering reliability!

Part No.	Description	Application
600-625-7620	FAN	PC1100, PC1100SE, PC1100SP, PC1250, PC1250SE, PC1250SP, PC200, PC200EL, PC200EN, PC200LL, PC200Z, PC210, PC220, PC220LL, PC230NHD, PC240, PC250, PC270, PC290, PW180, S6D102E, SAA-4D107E, SAA6D102E, SAA
600-635-7870	FAN, COOLING	PC300, PC300HD, PC340, PC350, PC350HD, PC360, PC390, PC390LL, PC400, PW400MH, SAA6D114E, SAA6D125E
600-625-7550	FAN, COOLING	HM400, PC118MR, PC160, PC180, PW118MR, PW130, PW130ES, PW140, PW148, PW160, S4D102E, S4D95L, S6D95L, SAA4D102E, SAA4D107E, SAA4D95LE, SAA4D95LE_5A
